

STI Testing

If you would like to be screened for sexually transmitted infections (STIs), you have a lot of options. STI testing usually includes gonorrhea, chlamydia, and HIV. If you have any symptoms (discharge, pain when urinating, etc.), please make an appointment at UH&CS to be evaluated by a provider.

UH&CS provides STI tests to students; these tests are usually free with your insurance.

Use the QR Code to make an appointment through MyHealthConnect.

UH&CS hosts STI Screening days every month. These tests are free and do not go through your insurance.

Use the QR Code to view the UH&CS event Calendar for screening days on Campus Groups.

Planned Parenthood offers STI testing. (This may come at a cost).

Use the QR Code to schedule an appointment and speak with a provider at Planned Parenthood.

This card is available in languages other than English. Please scan the QR code for more.
