

What is PrEP?

- PrEP stands for "pre-exposure prophylaxis"
- PrEP lowers your chances of getting HIV from sex or injection drug use
- PrEP is available as a pill or a shot
- PrEP is free with insurance

Who needs PrEP?

- PrEP is used by people without HIV who are at risk of being exposed to HIV through sex or injection drug use.
- Some examples:
 - Sex without condoms
 - STD diagnosis within the past 6 months
 - Partner with HIV or risk
 - Needle use
