

SUSTAINABLE CLEVELAND 2019 Climate Action Plan Update

Determined people from every walk of life will work together to shape vibrant livable communities, innovative businesses, and a flourishing natural environment that will result in health, wealth, creativity, and economic opportunities for all.

Celebration Years

By fostering the development of a *vibrant* public realm for all to share (great streets, meeting places, parks, libraries, public transit, etc.), neighborhoods can make affordable, low-consumption lifestyles more convenient and attractive.

377 US #ClimateMayors, representing 67.7 million Americans, have committed to adopt, honor and uphold the climate goals of the Paris Agreement
