

Office of Energy & Sustainability

About Us

The **Office of Energy & Sustainability** is dedicated to creating sustainable change on campus by reducing greenhouse gas emissions, improving energy efficiency, promoting local food, recycling, and sustainable purchasing, as well as advocating for individual and institutional behavior change.

Spring Break Energy Saving Tips

Save Energy When You Shut Down

With Spring Break starting, we have some reminders of how to shut down your office, lab, or res hall room while you're away. Turn down the thermostat, unplug what you can, and turn off vampire loads. Click through to our [website](#) for more info and have a great week off, students!

I Can't Believe it's Plant-Based!

On Monday, February 24th, our Food and Water student Sustainability Ambassadors collaborated with Kids Against Hunger to promote plant-based foods at Leutner Dining Hall. This is the second installment of the "I Can't Believe it's Plant-Based" program this semester which brings together Bon Appetit chefs and students to educate the community about alternative meat options and the opportunity to sample. Last Monday's meal was eggplant parmesan with vegan cheese. Keep an eye out for our next event on Monday, March 16th, hosted by the Student Sustainability Council.

Where Are They Now: Minji Kwon, former Sustainability Ambassador

Minji Kwon was on both our Recycling and

graduated in December 2019 and before she graduated, she had already landed a job with NOACA, our regional transportation and environmental planning district. Minji works on preventing car, pedestrian and cyclist crashes. Learn more in [her story on our website](#). Congrats on a great first job out of college, Minji!
