

RECYCLING at CWRU

Metal

- clean aluminum foil
- aluminum cans
- steel cans

Recycle numbers 1 - 7!

ideally clean & dry, but it's okay to recycle dirty too - just scrape extra food into the trash!

Plastic

Glass

- all colors of glass
- take off lids & empty

Just be aware:

- plastic cutlery
- stuff you can crumble (like films or food wrappers!)
- straws
- styrofoam

X can't be recycled.

Recycle all metal, glass, and plastic together - they share a bin!

Paper

If you can tear it, it's recyclable!

- non-laminated cardboard
- glossy paper
- all colors of paper
- stapled paper

For now, paper has its own bin - unless you're in Tink, Grab-it, Think[box], or the new Res Hall.

Corrugated Cardboard

Flatten boxes and place between the bins!

X Don't recycle: coated paper

Got batteries/electronics/toner cartridges? They need special facilities. Bring them to Wade or Fribley.
