TRANSFORMATION PROPOSITION

What are you offering the community?

My vision for food justice helps kids and families who need healthy eating knowledge and mental health support by offering lessons in food preparation and creative expression.

PROBLEM

Why is this needed?

Barriers to access for food insecure communities aka food deserts are transportation, lack of knowledge, low to no quality food stores, disregard, and generational unhealthy eating habits.

IMPACT FOR NUTRITION EQUITY

What's happening with this work in the next 6-12 months?

We will start by educating children about the benefits of healthy eating and offer lessons in food preparation while providing an outlet to express themselves creatively. Children will lead the way to achieve family buy-in to healthy living.

HOW CAN YOU GET INVOLVED?
