

The Mary Ann Swetland Center for Environmental Health Seminar Series Presents:

The University of Pittsburgh Center for Health Equity: Development, Strategies and Synergies

February 20, 2024 | 9:00 AM - 10:00 AM | *Virtual*

Presenters:

Dara D Méndez, PhD, MPH
*Associate Professor, Faculty in Epidemiology
Center for Health Equity, School of Public Health, University of Pittsburgh*

Lora Ann Bray
*Manager of Community Partnerships, Education and Training
Center for Health Equity, School of Public Health, University of Pittsburgh*

The University of Pittsburgh’s School of Public Health Center for Health Equity (CHE) marks the 29-year anniversary when the founding of its predecessor entity, The Center for Minority Health, set in motion a goal of developing research, teaching and service in support of improving the health and well-being of underrepresented populations. In its current form, CHE continues with its mission of elevating and uplifting health equity and justice. Our goal is to ensure that our priorities, goals and strategies align with the needs of our local community in Pittsburgh, Pennsylvania (PA) and Allegheny County, the region of Southwest PA, and the state of PA while also synergizing with our national and global partners. CHE has been successful in our three main pillars of research, service to community and education including leadership in research across the lifespan, continued community-partnered work through the Community Research Advisory Board (CRAB) and development of curricula in health equity. In this seminar, we will share the history of CHE and its development, describe some highlights and accomplishments over the years and plans moving forward.
