Swetland Book Club: Silent Spring

July 23rd | 10:30-11:30 am

Our Summer 2021 book selection is "Silent Spring" written by Rachel Carson, published in 1962. In the 1950's, David W. Swetland and Mary Ann Swetland felt that not enough was understood about the unintended health consequences of chemical, agricultural, and industrial products in our environment. Their resolve to change the world's perception of environmental threats was reinforced by Rachel Carson's book "Silent Spring." Join us and our summer interns in reading and discussing this pivotal book! [Sign up today!](#)
