News & Announcements

FM Engage Pilot Study Feature | Community Nutrition Team

Join a study testing the FM (Farmers Market) Engage App!

- Do you want to trial a new app that will provide up-to-date information about farmers markets and SNAP matching programs in your area?
- Do you live in Cuyahoga or Muskingum county in Ohio?
- Do you currently receive SNAP or did you receive SNAP in last year?
- Do you have children under 18 in your household?

If you answered YES to the questions above, you may be eligible for this study.

To learn more, call us at
216-368-7578,
email FMEngage@case.edu,
or scan the QR code

Study participants will be asked to use the FM Engage app at least once a week for two months, and complete two surveys. Participants will also have the opportunity to participate in a focus group with other FM Engage users.

We are recruiting families with SNAP benefits to participate in the Community Nutrition Team "FM Engage App" pilot study at select farmers' markets in Cuyahoga and Muskingum counties.

The FM Engage app is designed to provide families with information to help them prepare for market day and access fresh and healthy foods at the farmers market.

Ways to support:

- **Participate in The Research:** Contact us at (216) 368-7578, fmengage@case.edu, or click [here](#).

Produce Perks Tutorials | Community Nutrition Team

Through the support of the [Gus Schumacher Nutrition Incentive Grant Program](#), the Community Nutrition Team partnered with [Produce Perks Midwest](#) to produce two tutorial videos to assist Produce Perks users at [grocery stores](#) and [farmers' markets](#).

These videos were filmed by [LaunchArts Media](#) at [North Union Farmers Market](#) at Shaker Square and [Dave's Market](#) in Cleveland, OH.

Please consider sharing these videos with your community through Produce Perks' [Instagram](#), [Facebook](#), and [Twitter](#) accounts.

Seminar Series | *A Framework for Addressing Discrimination Bias in Social Data Science*

The Mary Ann Sweetland Center for Environmental Health Seminar Series Presents:

FAIR2: A Framework for Addressing Discrimination Bias in Social Data Science

September 26, 2023 | 9:00 AM | Virtual

Presenter:

Francisca García-Cobián Richter, PhD
Research Associate Professor at the Jack Joseph and Marlene Krosz School of Applied Social Sciences Case Western Reserve University

Building upon the FAIR principles of (meta)data (Findable, Accessible, Interoperable and Reusable) and drawing from research in the social, health, and data sciences, we propose a framework - FAIR2 (Frame, Articulate, Identify, Report) - for identifying and addressing discrimination bias in social data science. FAIR2 enriches data science with experiential knowledge, clarifies assumptions about discrimination with causal graphs and systematically analyzes sources of bias in the data, leading to a more ethical use of data and analytics for the public interest. FAIR2 can be applied in the classroom to prepare a new and diverse generation of data scientists. In this era of big data and advanced analytics, we argue that without an explicit framework to identify and address discrimination bias, data science will not realize its potential of advancing social justice.

Joint work with Emily Nelson (Sweetland Center), Nicole Coury (MSASS), Laura Bruckman (School of Engineering) and Shamina Knighton, Center for Infection Prevention and Control Research & CWRU.

REGISTER HERE or scan the QR code
This is a free monthly learning opportunity that is open to the public.

Don't miss out on the opportunity to build knowledge about **FAIR2 principles** (Frame, Articulate, Identify, Report) - for identifying and addressing discrimination bias in social data science.

Speaker: Francisca García-Cobián Richter

Date: September 26, 2023

Time: 9:00 am
