

Set Up of Android G1 and G2 with Google Mail

Step	Action
1.	Delete the settings for the Google account that is currently set up on your device. Click Settings. Click Applications.
2.	Clear the data for Gmail, Gmail Storage, and Google Apps. To clear the data click on the name of the application and click the Clear data button.
3.	Go to the Gmail application. A sign on screen will appear. Type your CaseID followed by @case.edu in the Username field. Type your Google password in the Password field. Click Sign in .
4.	The message, "Your email will appear shortly" appears on the screen. Click the Back button . Go to Settings . Go to Synchronization .
5.	The Synchronization screen will appear. Click the Auto-sync option to turn it off. Select the following options: Mail, Calendar and Contacts . A rotating sync symbol will appear next to each item you selected, and your 3G data arrows at the top should light up.
6.	After the sync has finished, you can Click Auto Sync , to turn this feature back on. If you do, then Google will sync these items again.
7.	You can now set up your Case Google Mail on your device. The following instructions are assuming that you do not have any mail accounts set up on the device.

Step	Action
