Poll Everywhere: Quick Start for Students

Poll Everywhere is an audience response tool that lets you interact with classmates and your instructor with live polling activities. This guide provides information on how to open a Poll Everywhere activity, log-in to your Poll Everywhere account, and provide a response to an activity.

Navigate to an Activity

The first thing you’ll need to do is go to the activity your instructor has created in Poll Everywhere. This assumes that your instructor is sharing an activity with the class and is ready for you to participate.

1. Open a web browser and navigate to PollEv.com or open the Poll Everywhere app.
2. Enter in your instructor’s username then select Join.

Typically, your instructor’s username will appear at the top of the Poll Everywhere screen they are sharing. If not, you will need to ask them to share their username or join code before you can respond to their activity.

Log-in to Poll Everywhere

Once you have opened a Poll Everywhere activity, you will need to log-in to your account. If you are already logged-in, you can skip this step and respond to the activity instead.

Your First Log-in

When you log-in to your first Poll Everywhere activity, you will need to confirm your details before you can complete the activity.

1. Select the Log in with SSO link.
2. **Enter** your first and last name, then click the **Continue** button.

3. Confirm your information is correct and click the **Register** button to register your account.

4. After entering your name, your registration will be complete and you can **Join** your instructor’s presentation.

After saving your information, you should be taken back to the activity you were trying to access. You can now respond to the activity.

**Subsequent Log-ins**

After you have logged-in for the first time, you will no longer have to setup your account information.

1. Select the **Log in with SSO** link.

2. Enter your **CWRU SSO information** (abc123 and password).

After entering your CWRU SSO information, you should be taken back to the activity you were trying to access. You can now respond to the activity.

**NOTE:** If you are prompted with the following screen at any time, enter your abc123@case.edu email and click **Next**. Do not attempt to sign in with Google or with Apple.
1. Click **Log in with Case Western Reserve University**

![Log in to Poll Everywhere](image)

2. Enter your **CWRU SSO information** (abc123 and password).

**Responding to Activities**

Depending on the question types your instructor uses in their activities, you may or may not see various options when providing your answer. Usually, responding to an activity is easy: select the answer you want to choose among the options on the screen, or type in an answer for written activities.

If your instructor uses several activities throughout class, you can access them from the same page. You won’t need to navigate to a different page each time; the activities will automatically update on your screen.

**Additional Information and Support**

**Poll Everywhere Resources**

Poll Everywhere has some great resources for learning more and getting started with Poll Everywhere.
