

M365 Installation - iOS

- Find the Microsoft Word app (or other Office 365 productivity app) on the App store:
 - o Word https://apps.apple.com/us/app/microsoft-word/id586447913
 - o Excel https://apps.apple.com/us/app/microsoft-excel/id586683407
 - o PowerPoint https://apps.apple.com/us/app/microsoft-powerpoint/id586449534
 - o OneNote https://apps.apple.com/us/app/microsoft-onenote/id410395246
- Tap "GET" to begin installing.

• Click through the get started prompts for privacy, diagnostics, and notification setups choosing your preferences.

• Once you are in the app, enter the settings menu

- In the settings menu, you may already be logged in with your personal account, if so follow the next few steps to sign out.
- Tap your personal account, then tap "Sign Out"

• Tap "Sign in" to begin logging in with your CWRU account:

• Sign in with your <u>abc123@case.edu</u> Microsoft account. This is automatically created and synced from your Case ID. Use your SSO password.

• When prompted, authenticate with Duo.

• If you want more Office 365 apps, tap the "Microsoft Apps" icon at the bottom of the home screen.

• From here, tap any other apps you want to install.

• Repeat the installation steps for any additional apps desired.
